Merit Advance™

ANGIOGRAPHIC NEEDLES

Merit Medical is proud to introduce a new needle to its Merit Advance Angiographic line of needles. One use of this curved needle, bent in a C-shape, is to aid clinicians who choose to place a tunneled dialysis catheter over a wire with a single stick.¹

The needle is designed with the high standards you've come to expect from Merit Medical Systems. The combination of hub, coated stainless steel, and sharpness of tips make Merit needles the best choice for expert clinical performance.

Packaged 25 per box – 4 boxes per case

¹ Contractor SG, Phatak TD, Bhagat N. De Novo Placement of a Tunneled Dialysis Catheter over a Wire with the Single-Incision Technique. J Vasc Interv Radiol 2008; 19:1255-1259.

BENEFITS

- Unique hub design with ergonomic feel and reference point to orient level.
- Increased sharpness to facilitate entry into tissue and vessel walls.
- Designed for smooth guide wire insertion and removal of the needle over the wire.

OTHER DIALYSIS SOLUTIONS

PROGUIDE™ CHRONIC DIALYSIS CATHETER

A step-tip dialysis catheter that's clearly a step up. Apposition bump deflection minimizes recirculation and optimizes flow rates.

MERIT MAK™ & SMAK™ MINI ACCESS KITS

When little things mean a lot, get started with the Merit MAK.

PRELUDE® SHORT SHEATH INTRODUCERS

Short sheath provides access to dialysis fistulas and grafts. Can be used for declot, angioplasty, and thrombolysis procedures, as well as temporary hemodialysis.

IMPRESS® PERIPHERAL ANGIOGRAPHIC CATHETERS

An impressive line of catheters from tip to hub. The proprietary braid pattern provides premier flexibility without compromising steerability. Now available in short, 30cm lengths.
