Merit Disposal Depot™
Waste Bags

FEATURED PRODUCTS

- PAL™ Medication Labeling System
- Medallion® Syringes
- Futura® Safety Scalpel
- BackStop+™ Disposal Basin with Temporary Sharps Holder
- Merit Disposal Depot™ Waste Bags

Merit Medical has a complete line of products designed to ensure the safety of clinicians and patients. **SHIELDED** scalpels, and **SECURE** temporary sharps holders help protect clinicians from accidental sharps injuries. Closed containers prevent hazardous spills and allow convenient and **SAFE** waste disposal. Multiple color options and smear-resistant labeling for syringes and containers help meet safety goals by preventing medication errors.

FEATURED PRODUCT

MAK-NV™ Non-Vascular Mini Access Kit

MAK-NV™

Mini Access Kit Non-Vascular

Merit Medical helps you achieve **QUICK** and efficient access with an introducer system designed with a radiopaque marker for **PRECISE** location of the introducer tip. It has an echo-enhanced needle for more **ACCURATE** placement with ultrasound guidance.

ReSolve® Biliary
Locking Drainage Catheter

ReSolve®
Non-Locking Drainage Catheter

FEATURED PRODUCTS

- ReSolve® Biliary Locking Drainage Catheter
- ReSolve® Non-Locking Drainage Catheter
- ReSolve® Locking Drainage Catheter

For all-purpose and biliary drainage procedures, ReSolve locking, non-locking, and biliary drainage catheters help to **LESSEN TRAUMA** and promote more accurate placement. The tip of the locking and biliary drainage catheters are located on the inside of the pigtail curve to prevent irritation of the surrounding tissue. The catheter shafts have depth-positioning markers to facilitate **ACCURATE** placement and to act as a reference for correct **POSITIONING**.

ReSolve® Locking
Drainage Catheter

TAPS

Thoracentesis &
Paracentesis Set

Valved One-Step™

Centesis Catheter

The valved One-Step™ has been designed for safety and controlled insertion to decrease paracentesis and thoracentesis procedure times. The **SELF-CLOSING** valve reduces the risk of pneumothorax and fluid leakage. The **SHARP** needle, smooth transition, and tapered tip help to **DECREASE** resistance and patient discomfort - while the echo-enhanced needle ensures more accurate placement. Large drainage holes and the pigtail tip design maximize drainage.

DRAIN

StayFIX®
Fixation Device

Drainage procedures require **SAFE** and **SECURE** catheter fixation. Our securement devices hold catheters in place without the use of needles reducing the risk of accidental sharps injuries for clinicians. They are a **COMFORTABLE** option for patients. The Revolution's see-through cap provides protection when showering.

FEATURED PRODUCTS

StayFIX® Fixation Device
Revolution™ Catheter Securement Device

Revolution™
Catheter Securement Device

Merit drainage bags have **EASY-TO-READ** markings to identify fluid volume, a twist valve for easy disposal of fluids, and an internal **ANTI-REFLUX** valve. Available with **ADJUSTABLE** length tubing and a VELCRO® brand leg strap to fit a variety of patients.

Merit Drainage Depot™
Drainage Bag

VELCRO® brand strap is a registered trademark of Velcro Industries B.V.
