Syringes

PAL™
Medication Labeling System

prepare

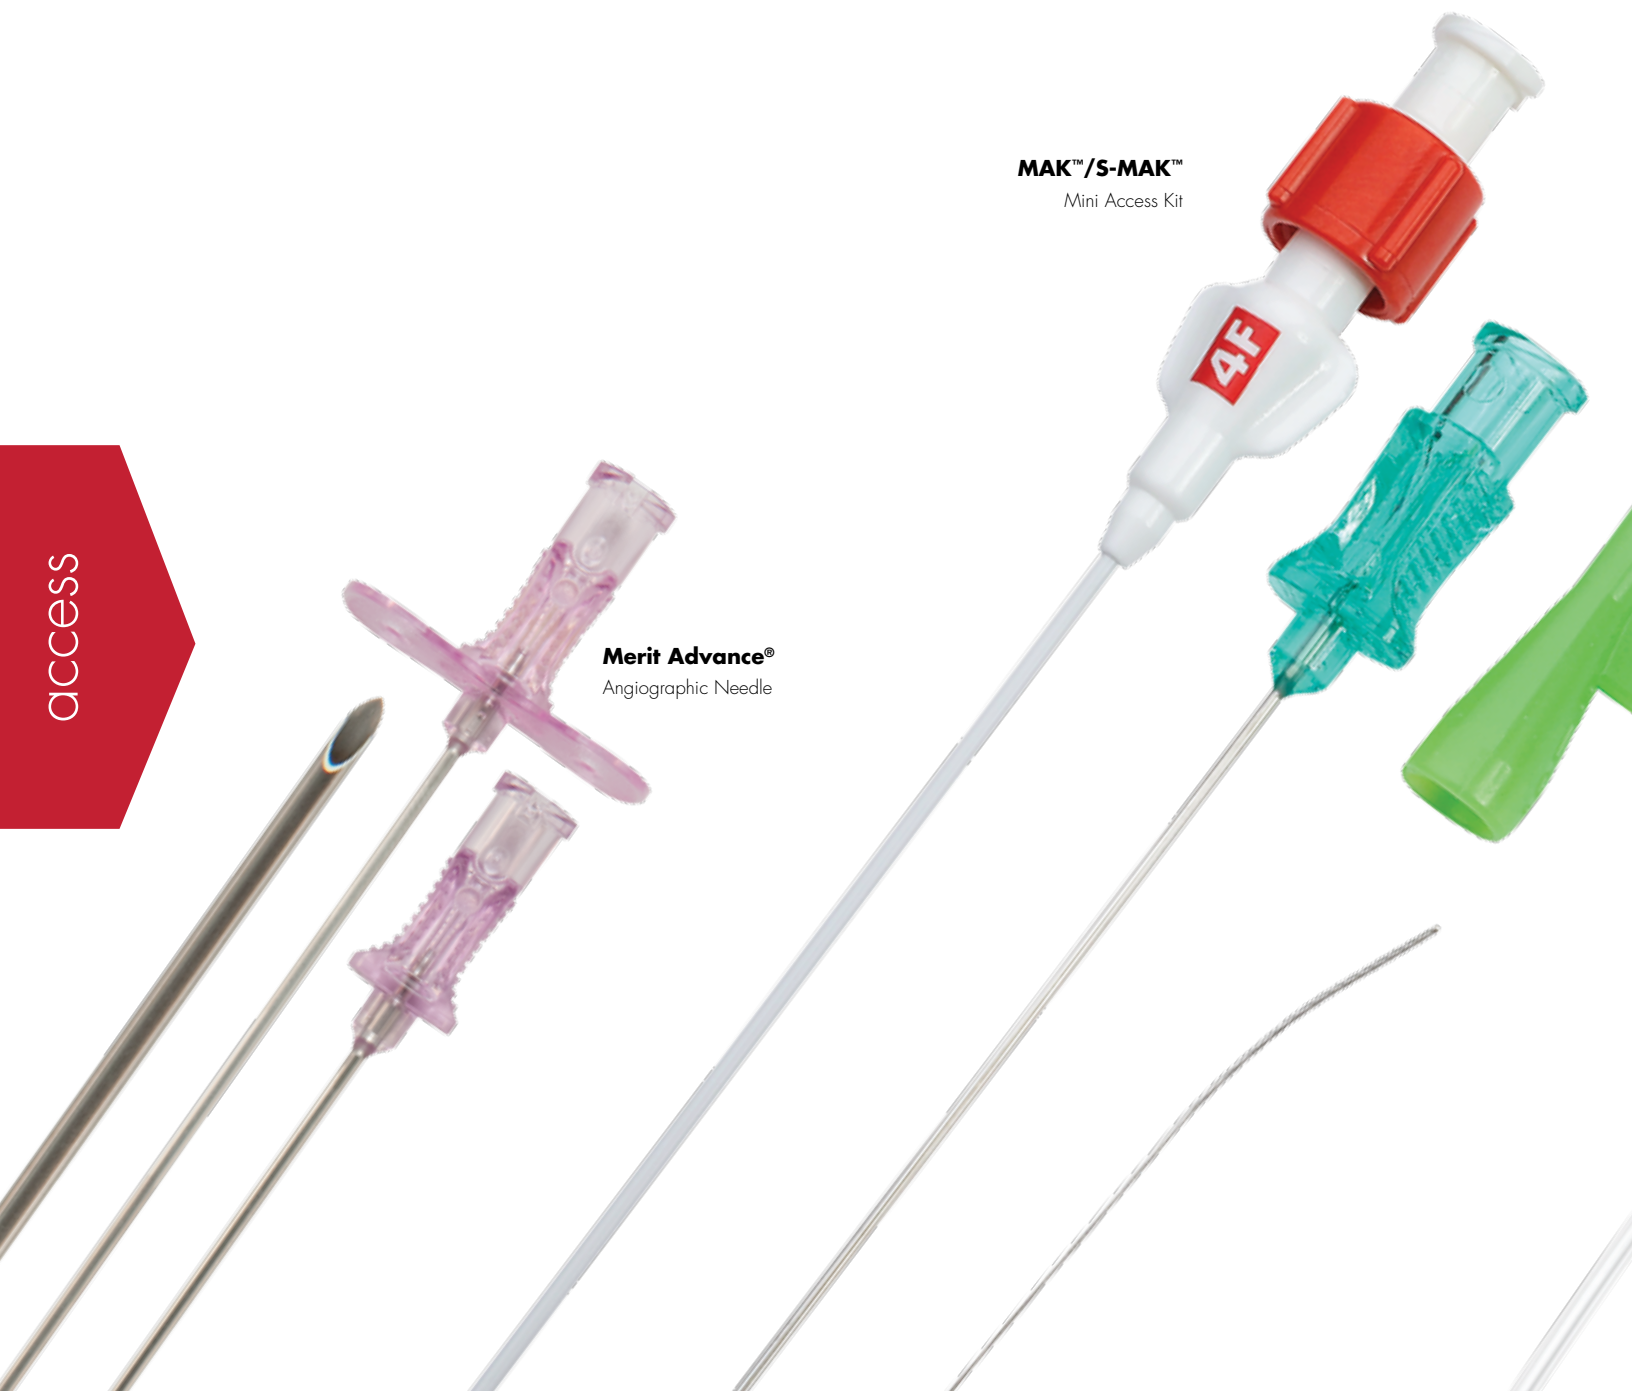

> promote safe preparation

Merit Medical has a complete line of products designed to ensure the **SAFETY** of clinicians and patients. Shielded scalpels, needles, and secure temporary sharps holders help **PROTECT** clinicians from accidental sharps injuries. Closed containers **PREVENT** hazardous spills and allow convenient and safe waste disposal. Multiple color options and smear-resistant labeling for syringes and containers help meet safety goals by preventing medication errors.

access

Merit Advance®
Angiographic Needle

MAK™/S-MAK™
Mini Access Kit

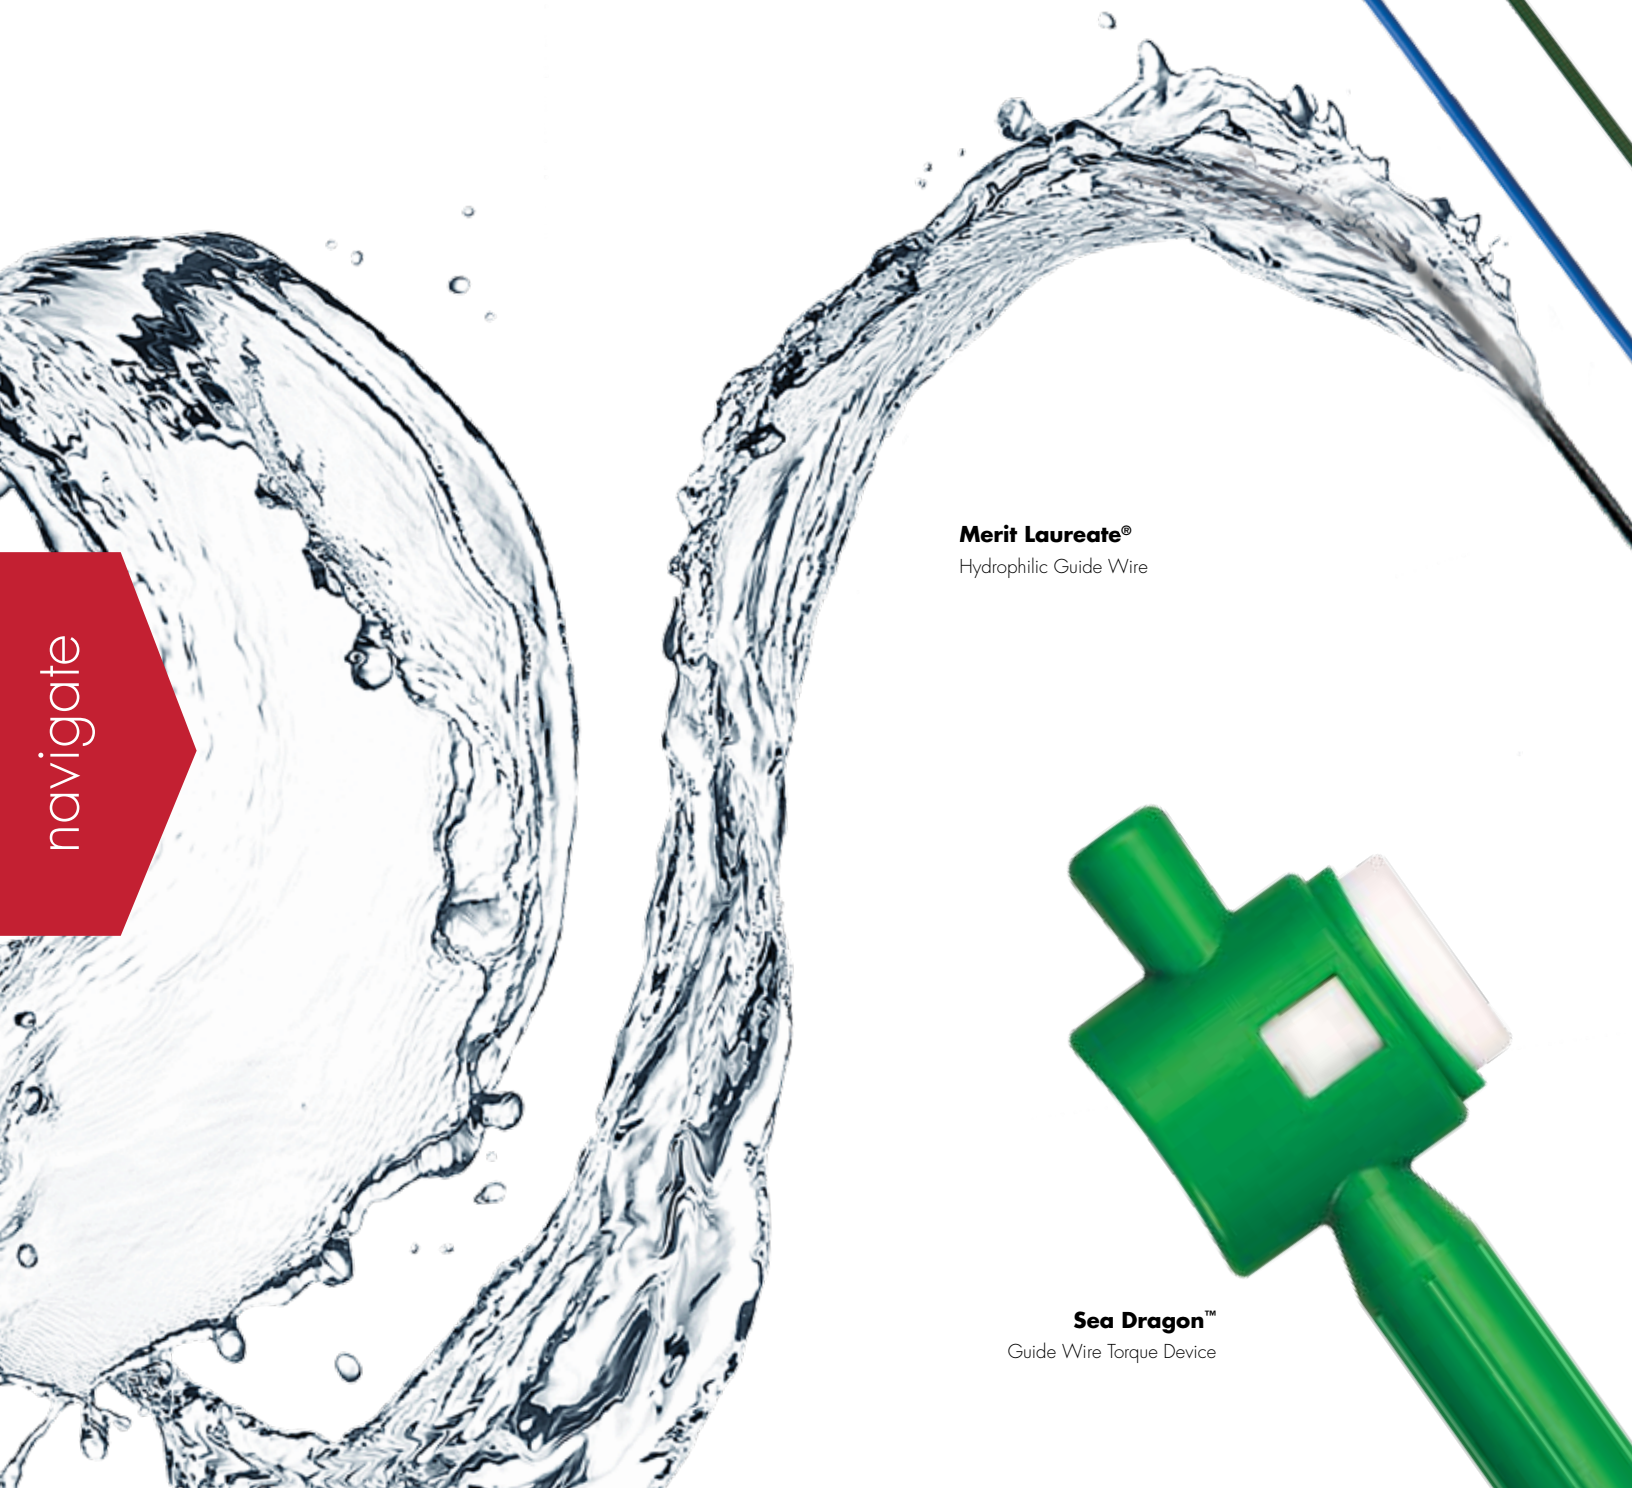

> start with quality

Merit Medical helps you achieve **QUICK** and **EFFECTIVE** access with sharp angiographic needles, mini access kits designed to lessen trauma and reduce bleeding, and sheath introducers with **EXCELLENT** transitions for smooth insertion.

Micro Guide Wire

navigate

> navigate with confidence

Lubricious, hydrophilic guide wires reduce friction and enhance your ability to make rapid catheter exchanges. Their superior torqueability gives you turn-for-turn **RESPONSIVENESS**. Ergonomic torque devices let you maintain optimal **CONTROL** and performance when navigating tortuous anatomy. Our diagnostic guide wires are manufactured with a unique PTFE precoating process which results in a consistently smooth surface for catheter compatibility and **TRACKING** through difficult vasculature.

Tubing

Performa®
Vessel Sizing Catheter

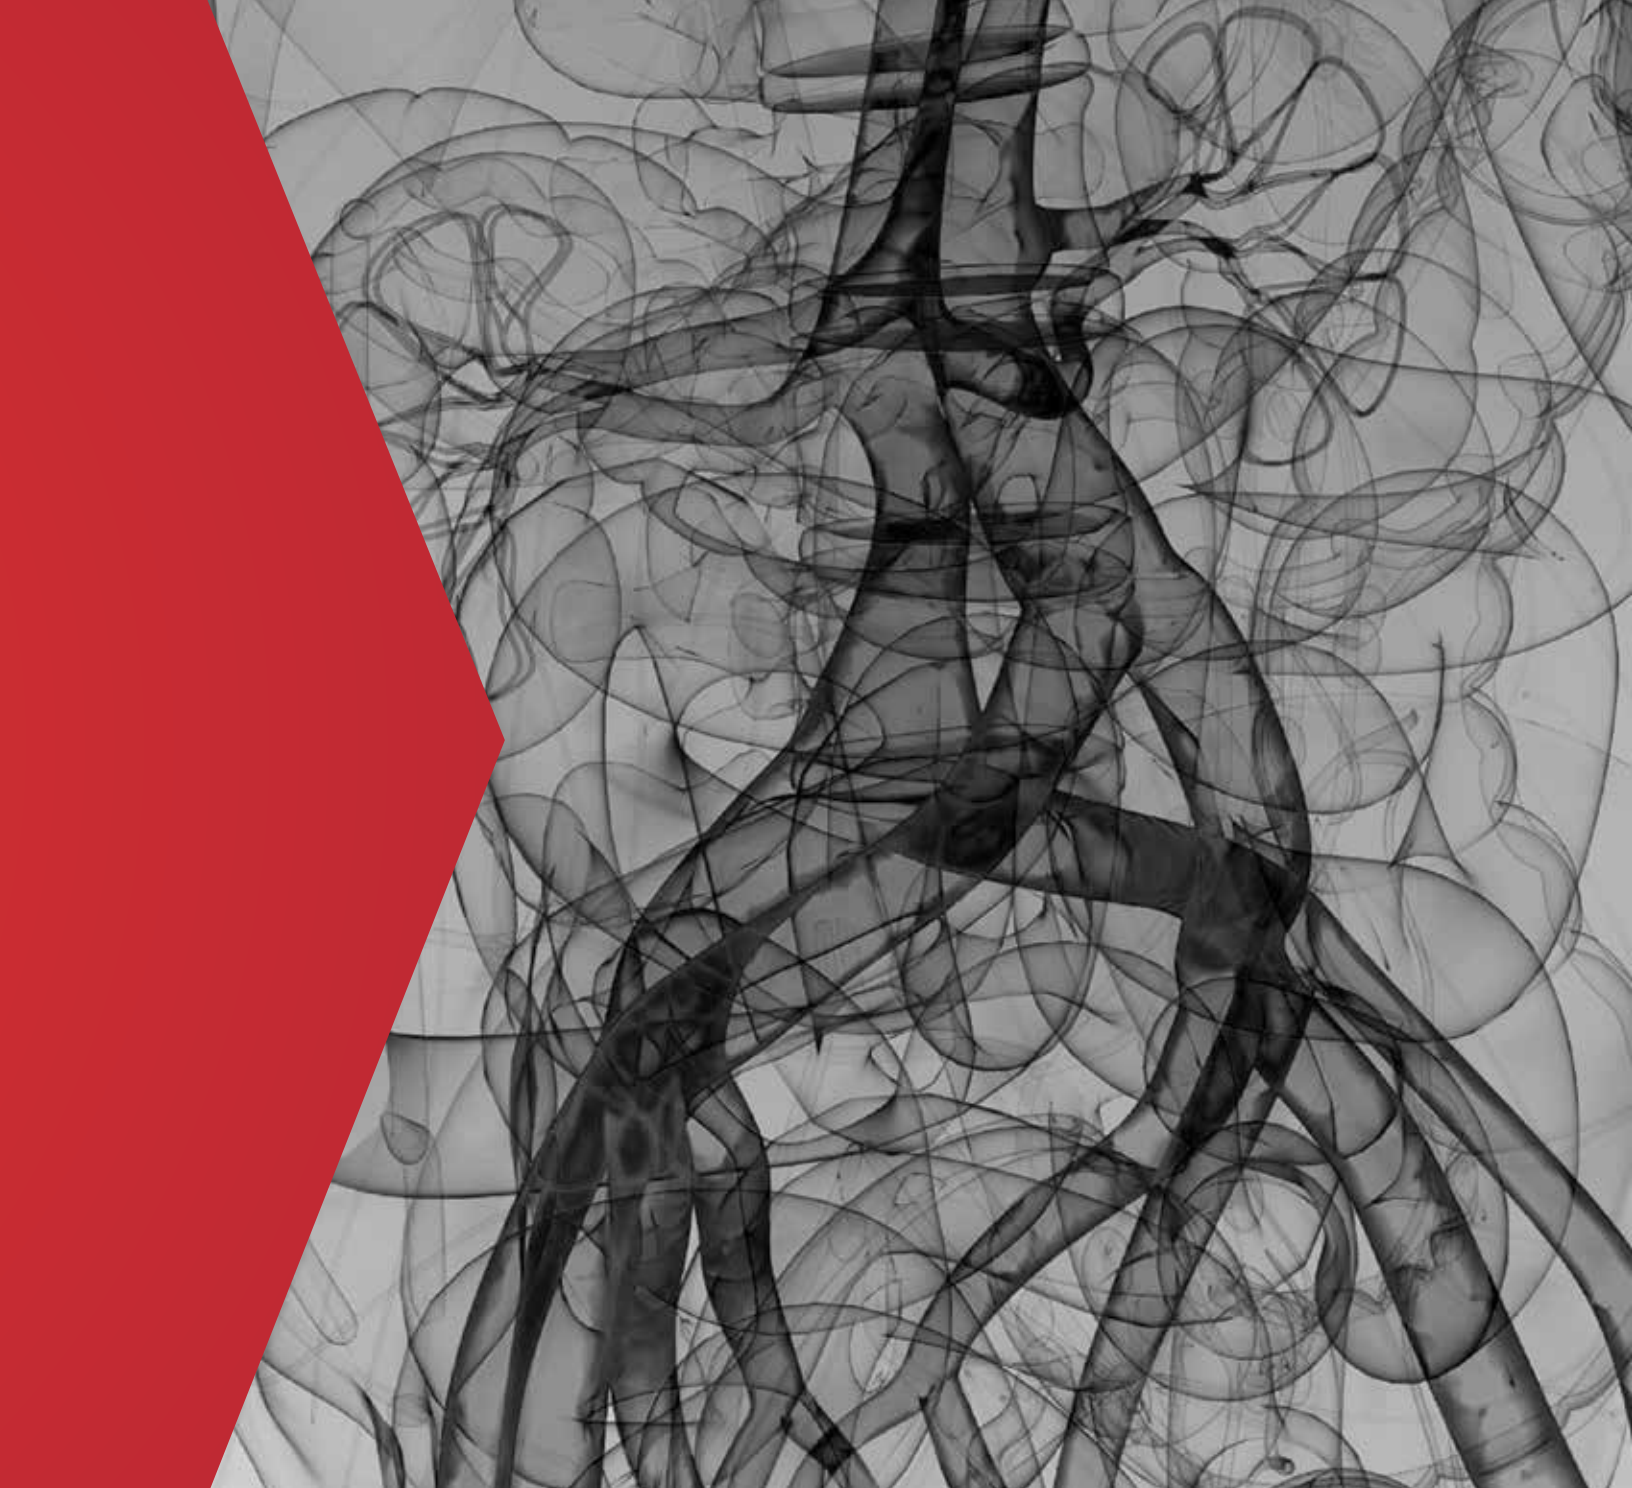

diagnose

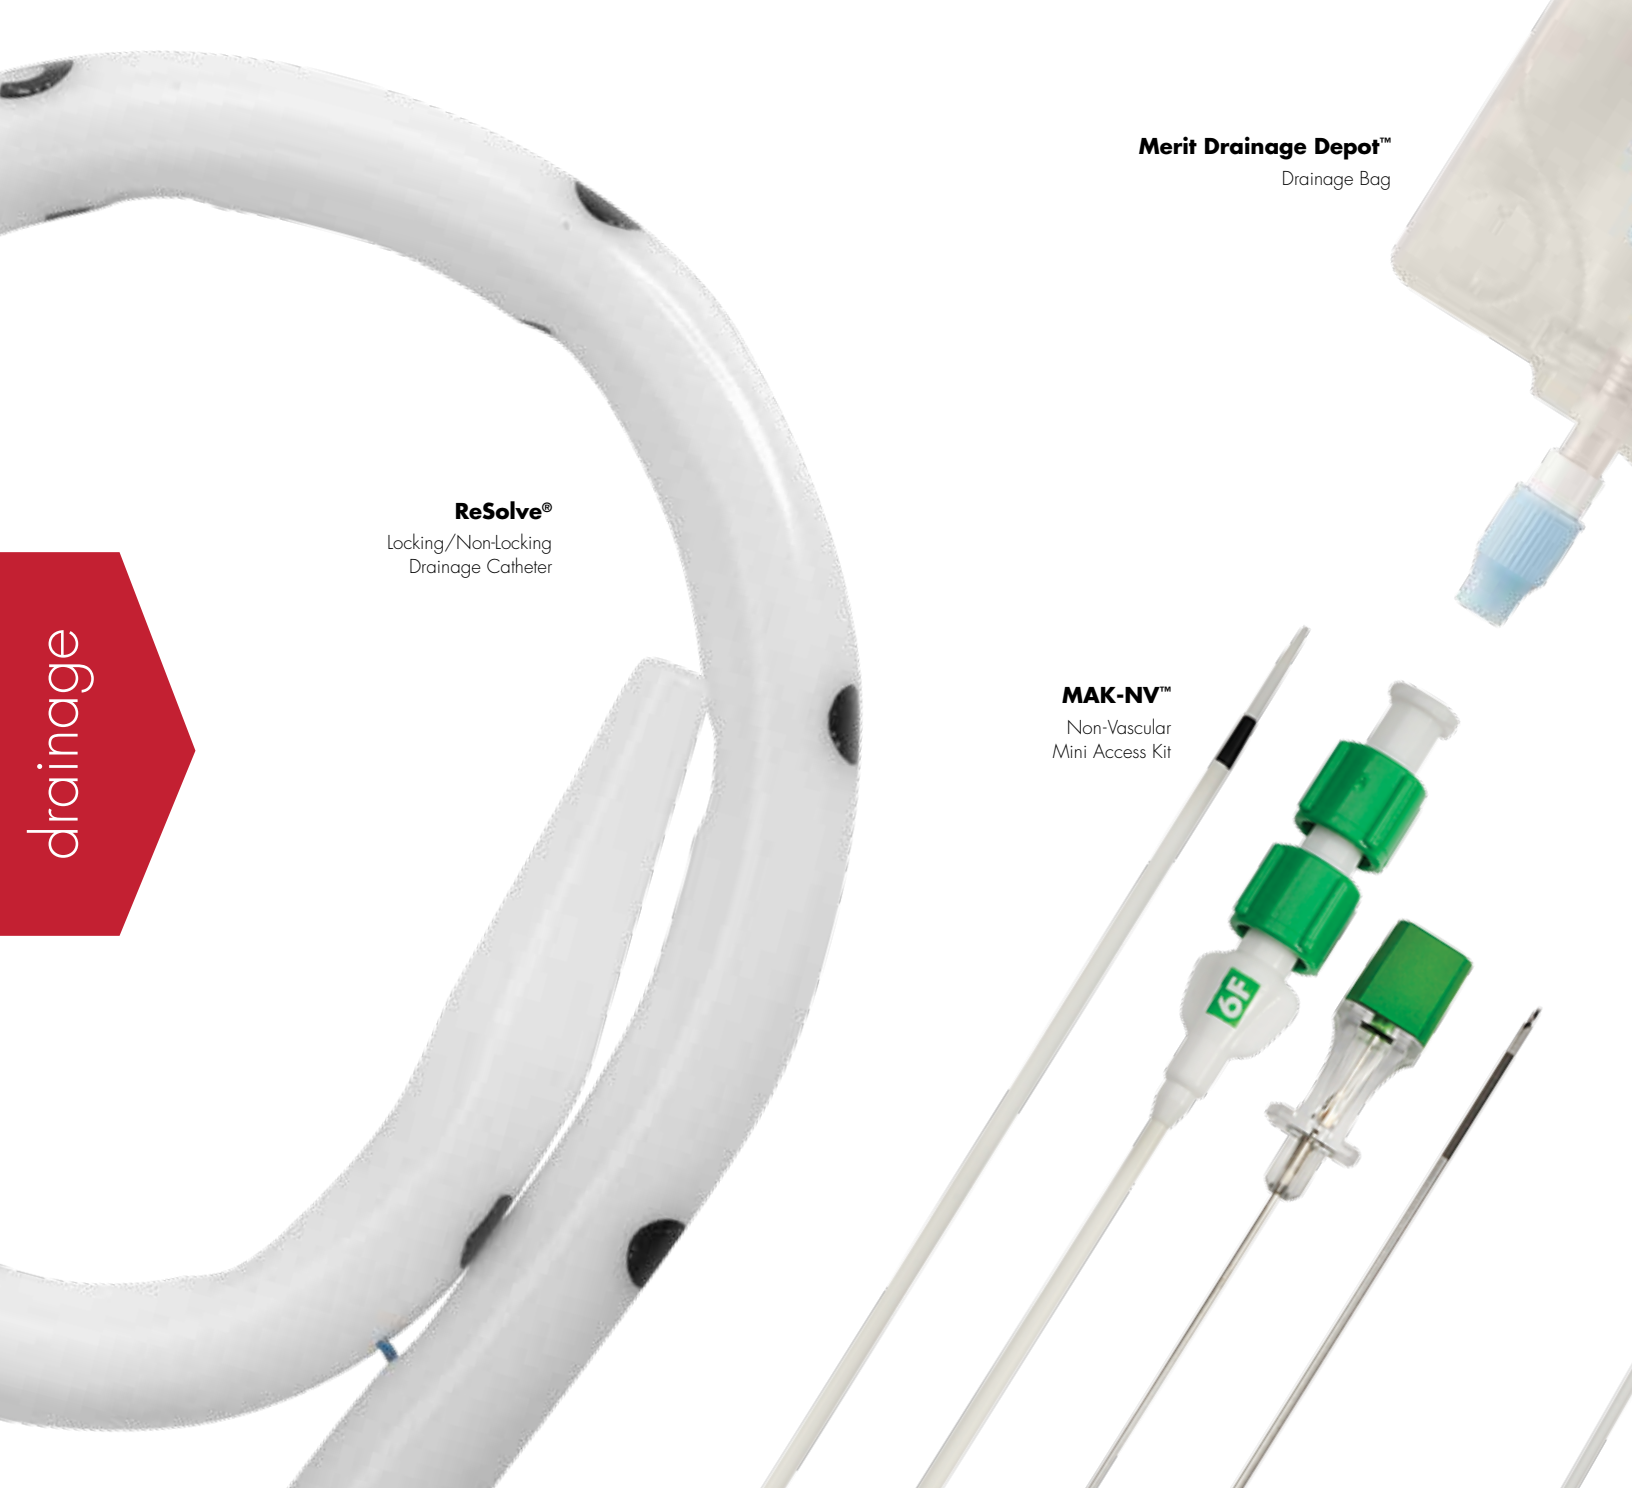

> choose performance

Tapered tips, **KINK-RESISTANT** hub design, and unique braided shafts give Merit Medical's diagnostic peripheral catheters the maximum **FLEXIBILITY** you need without compromising steerability. Polycarbonate barrel of our syringes creates a "smooth as glass" feel and increases **VISIBILITY** of fluid and air bubbles.

Drainage Catheter

Merit Drainage Depot™
Drainage Bag

MAK-NV™
Non-Vascular
Mini Access Kit

> deliver solutions

CONVENIENT, prepackaged drainage procedure trays can improve your clinical efficiency from start to finish. Our drainage catheters have been designed with tapered tips for smooth access and large holes for effective drainage. Positioning the catheter tips within the pigtail reduces injury to your patients. The **SELF-SEALING** valves of our centesis catheters minimize the risk of pneumothorax in patients and prevent exposure to hazardous fluid leakage. Accessories include introducer systems, drainage bags with twist valves for easy disposal of fluid, and catheter securement devices that provide **COMFORTABLE** and **SECURE** catheter fixation without the use of transdermal sutures.

> deliver quality of life

Merit Medical's full suite of **INNOVATIVE** peritoneal dialysis products can help you improve your patient's **QUALITY** of life when treating end-stage renal disease. This **COMPREHENSIVE** line of peritoneal dialysis catheters, implantation kits, and accessories has been designed to meet your unique clinical needs. We also offer hemodialysis catheters in a step-tip design, and a self-centering split tip configuration designed to reduce the potential of fibrin sheathing.

Ostial PRO®
Stent Positioning System

basixTOUCH™
Inflation Device

AccessPLUS™
Hemostasis Valve

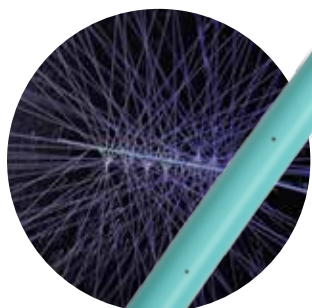

> deliver options

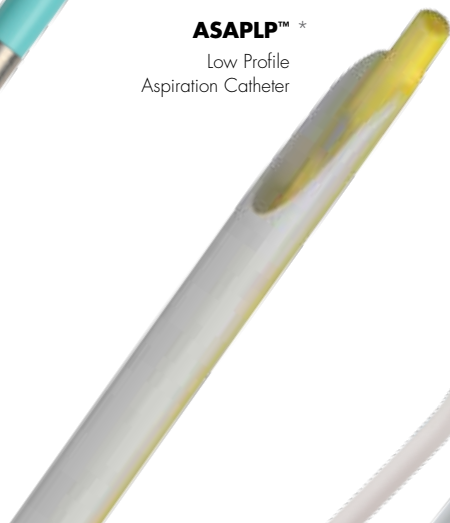

Merit Medical offers several products to support your treatment of peripheral artery disease (PAD). Our improvements in inflation device technology give you increased capacity and greater volume for **FASTER** inflation. To help you achieve more accurate and **PRECISE** ostial stenting, we offer a revolutionary stent positioning system. Two endovascular snare configurations give you the options you need for reliable and **ACCURATE** manipulation and foreign body retrieval. A new, low profile aspiration catheter, designed with a radiopaque marker band, is intended for extracting soft thrombus from peripheral and coronary vessels. We also offer a complete line of therapeutic infusion systems to help you achieve more **UNIFORM** dispersion of therapeutic agents.
