

CARDIAC INTERVENTION

PRODUCT CATALOGUE

MESSAGE FROM OUR FOUNDER AND CHIEF EXECUTIVE OFFICER

Merit Medical was founded on a strong desire to develop partnerships with healthcare providers. By working closely with you and listening to your challenges, we are able to design, manufacture, and deliver medical devices you can rely on to improve the health and well-being of the patients we mutually serve.

Our Cardiac Intervention catalogue is filled with feature-rich product options and the technical information you need to support your purchasing decisions. These products are designed to assist interventional and diagnostic procedures at every step, from access to closure. We are proud of this comprehensive, diverse product portfolio that has been developed to help healthcare providers deliver efficient, patient-focused, and cost-effective care.

Each day we strive to understand, innovate and deliver for our partners in healthcare and the patients we serve.

Fred Lampropoulos
Founder, Chairman & CEO
Merit Medical Systems, Inc.

RAD BOARD® & ACCESSORIES

The Rad Board and Accessory Products provide support for radial access procedures and optimise the efficiency of radial procedures by streamlining and standardising setup.

RAD BOARD® RADIAL ARM BOARD

The Merit Medical Rad Board is a rigid PVC board used to provide support for a patient's arm during a radial or similar procedure. The Rad Board contains a thin layer of Xenolite®* TB (15" x 9"/38 cm x 23 cm) to provide additional protection against radiation scatter. The Rad Board is the only arm board that offers radiation scatter protection¹. The dotted lines on the product logo label indicate the position of the Xenolite TB layer. The Rad Board is reversible, reusable, and non-sterile. Sold individually.

Catalogue Number RB100

¹Data on file.

RAD BOARD XTRA™

The Merit Medical Rad Board Xtra is a rigid PVC board designed to be used in conjunction with the Merit Medical Rad Board® (sold separately). The Rad Board Xtra allows 90° perpendicular extension of the patient's arm during access and provides an additional 11" (28 cm) of working space when placed next to the Rad Board. The Rad Board Xtra is reversible, reusable, and non-sterile. Sold individually.

Catalogue Number RBX

*Xenolite® is a registered trademark of Lite Tech, Inc.

RAD TRAC®

The Merit Medical Rad Trac is made of rigid PVC and is designed to be used in conjunction with the Merit Medical Rad Board® (sold separately). The Rad Trac facilitates placement of the Rad Board with a patient already on the procedure table. The Rad Trac is reusable and non-sterile. Sold individually.

Catalogue Number RT913

RAD REST®

The Merit Medical Rad Rest is an adjustable stabilisation and positioning cushion used to hyperextend the wrist for radial access and support the forearm/elbow during procedures. Easily adjusts to accommodate any upper extremity length. Made of soft foam for increased patient comfort. The Rad Rest is disposable and non-sterile. Individually packaged, 10 units per box.

Catalogue Number RR811

MERIT ADVANCE® ANGIOGRAPHIC NEEDLES

The Merit Advance angiographic needle has a unique hub design with an ergonomic feel and an arrow that clearly orients the bevel. Its increased sharpness facilitates entry into tissue and vessel walls and was designed for smooth guide wire insertion and removal of the needle over the wire.

MERIT ADVANCE® ANGIOGRAPHIC SAFETY NEEDLES

The unique design of the Merit Advance Angiographic Safety Needle allows clinicians to easily activate a low profile safety mechanism, shielding the needle bevel after use. The hub of this introducer needle is transparent for visibility and designed with an ergonomic feel for ease of handling.

PRELUDEEASE™ HYDROPHILIC SHEATH INTRODUCERS

The PreludeEASE hydrophilic sheath introducer helps you achieve quick and effective radial access while minimising the potential for spasm with hydrophilic coating that extends to the tip of the sheath and excellent transitions for smooth insertion. Available in 4F-7F for patients with smaller arteries and larger sizes for diagnostic and interventional procedures. Product is available in multiple kit configurations as well as custom options to meet your specific procedural needs.

Custom kits available.

KIT INCLUDES:

- PreludeEASE sheath and dilator
- Merit Advance® needle or two-part needle
- Guide Wire - spring coil, stainless steel, nitinol mandrel, or plastic jacketed available
- BowTie™ guide wire insertion device (only included in kits with 0.018" guide wire)

PRELUDE® RADIAL SHEATH INTRODUCERS - MINI ACCESS

The Prelude Radial Sheath Introducers for mini access facilitate sheath introducer placement via a small needle (21G or 20G) and small guide wire (0.46 mm or 0.64 mm). The sheaths are available in three lengths, 7 cm, 11 cm, and 23 cm, and are packaged in a holster with the sheath, vessel dilator, guide wire and needle. Products can be used for transradial, brachial and femoral access.

PRELUDE SHEATH INTRODUCERS 11 CM

The Prelude Sheath Introducer 11 cm offers excellent transitions, smooth insertions and more. Features a haemostasis valve to minimise blood leakage and facilitates the insertion and withdrawal of devices. Packaged in a holster that keeps all components secure, especially the guide wire. Components can be flushed while in the holster. Guide wires are double ended, stainless steel, with a 3 mm J end and a floppy straight end. Product includes a vessel dilator, sheath introducer and guide wire (also available without guide wire).

PERFORMA® DIAGNOSTIC CARDIOLOGY CATHETERS

Merit's diagnostic cardiology catheters have an ideal combination of torque + push + flow. These catheters incorporate a nylon shaft and flatwire braid for torque and pushability along with large inner lumens for impressive flow rates.

4F PERFORMA CATHETERS:

- Accept 0.038" (0.97 mm) guide wire for physician convenience
- Bumper tip softness added for safe placement of tip into ostium
- Large inner diameter 0.042" (1.07 mm) provides excellent flow rates

Recommended guide wire is .038" (0.97 mm)

The MIV Radial Ventriculogram Catheters are designed to angle toward the left cusp from the radial approach, facilitating insertion into the ventricle.

PERFORMA® RADIAL MULTIPACK PLUS

The Multipack Plus combines the Prelude® Sheath Introducer, the InQwire® diagnostic guide wire, and the Performa® diagnostic cardiology catheter all in one pack for easy, one-step preparation for your procedure. Ordering a single pack saves time, space, and reduces waste.

Recommended guide wire is .035" (0.89 mm)

*SH suffix identifies marker bands that are 16 mm closer to the pigtail curve.

INQWIRE® DIAGNOSTIC GUIDE WIRES

The InQwire guide wire is precoated with PTFE over the entire wire surface for smooth, consistent coverage that resists flaking. Less friction means increased trackability, lubricity, and durability. Its precise J-tip memory does not require reloading the J straightener, and the tight guide wire tolerances ensure catheter and sheath compatibility.

MERIT LAUREATE® HYDROPHILIC GUIDE WIRES

The Merit Laureate hydrophilic guide wire facilitates the placement of devices during diagnostic and interventional procedures. Its torque control, turn-for-turn responsiveness, and lesion crossability demonstrates high performance in navigating tortuous vessels. The hydrophilic coating offers enduring lubricity and consistent surface coating adhesion. The Merit Laureate was designed to reduce wire whipping, minimise friction, and to promote rapid catheter exchanges.

The Merit Laureate® hydrophilic guide wire has an improved hydrophilic coating that offers enduring lubricity and consistent turn-for-turn responsiveness.

MISER® CONTRAST MANAGEMENT SYSTEMS

The Miser Contrast Management System’s exclusive orange ball and burette design prevents air from entering fluid lines during angiography, ensuring patient safety. The dual one-way check valve’s microbial barrier blocks cross contamination. Automatic refill during each contrast withdrawal allows for quick and easy preparation.

MISER CONTRAST MANAGEMENT SYSTEM

Includes 72" (183 cm) distal tubing, 2 one-way check valves, 30 mL burette, air-inlet valve. Configurations available with and without a distal stopcock and with large or small bore distal tubing. Packaged 10 units per box, 4 boxes per case.

MERIT® MANIFOLDS

Merit Manifolds have been designed to meet numerous clinician preferences. The clean polycarbonate material allows easy visibility for de-bubbling, and the handles have been designed for ease of torque. In addition, options include one to five port, 200 psi or 500 psi, 6" (15 cm) extension tubing and rotating Luer, and block body or half body styles. Packaged 25 units per box, 4 boxes per case.

TRAM® MANIFOLDS WITH INTEGRAL TRANSDUCER

The TRAM Manifold with Integral Transducer gives a single operator the convenience to de-bubble, zero and rezero within the sterile field. The TRAM has optimised clinician comfort by reducing hand fatigue with low torque, easy-to-turn wide-spaced handles, even when utilising higher injection pressures. The Devos™ TRAM manifold has a check relief valve. Packaged 10 units per box, 4 boxes per case.

TRAM-P™ MANIFOLDS WITH INTEGRAL TRANSDUCER

The TRAM-P features a pressure transducer on the first port. By positioning the compensation line on an IV pole rather than on a table, the TRAM-P maintains a constant calibrated reading. With this configuration, the manifold can be moved to any position without affecting the accuracy of the pressure reading. Comfortable wide-spaced finger grip option. The Devos™ TRAM-P manifold has a check relief valve. Packaged 10 units per box, 4 boxes per case.

CCS™ CORONARY CONTROL SYRINGES

The CCS Coronary Control Syringe has a clear barrel for clarity and smoothness and a solid plunger body to maintain stability and durability under pressure. The rotating and fixed Luers allow flexibility and confidence in the Luer connection. The specially designed safety space limits the potential for introducing air bubbles into the catheter. The CCS locking ring permits vacuum or negative pressure. The Inject8™ and Inject10™ offer clinicians more pressure with less applied force. Packaged 25 units per box, 4 boxes per case.

CONCIERGE® GUIDING CATHETERS

Merit Medical's ConcierGE offers guiding excellence with superior performance in the features clinicians value most: kink resistance (30% more than leading brands¹), backup support, an atraumatic tip, and 1:1 torque.

Durometer of nylon provides good support and pushability for the catheter.

Softer than dark green shaft, provides the catheter with more flexibility as it comes around the aortic arch and starts to form the catheter shape.

Even softer, providing even more flexibility to the shape of the catheter tip. Each segment becomes progressively softer.

¹Data on file. Test results based on 6F guide catheter comparison.

BASIXCOMPAK™ INFLATION DEVICE KITS

The BasixCOMPAK is a 30 atm analogue inflation device that features an angled gauge for better viewing of pressure readings and a luminescent dial for low-light procedures. The 5 mL of safety space is intended to minimise air bubbles introduced into the balloon.

KIT INCLUDES:

- BasixCOMPAK Inflation Device
- 13" (33 cm) Extension Tubing
- 3-Way Stopcock
- MAP - Merit Angioplasty Pack (includes haemostasis valve, metal guide wire insertion tool, and torque device)

Packaged 5 kits per box, 4 boxes per case.

BASIXTOUCH™ INFLATION DEVICE KITS

The BasixTOUCH™ Inflation device is an innovative device with an ergonomic handle that enables one-handed preparation and priming, 35 atm pressure capability and 30 mL fluid capacity. Features a quick-release handle for easy release even from high-pressure inflations, accelerating deflation time. Reaches high pressures rapidly—with less than three rotations of the handle. Comes with high pressure stopcock.

BLUE DIAMOND™ INFLATION DEVICE

The 30 atm Blue Diamond inflation device combines the accuracy of a digital device with the simplicity of analogue systems. Features include one-button functionality for simplicity, a large dial face with oversized digits to enhance visibility, and last inflation marks to recall the highest pressure of the previous inflation. Comes with 13" (33 cm) extension tubing and 3-way stopcock. Packaged 5 units per box, 4 boxes per case.

OSTIAL PRO® STENT POSITIONING SYSTEM

The Ostial PRO is a medical grade, disposable guide wire system designed to provide consistent and precise stent implantation in aorto-ostial lesions during coronary or peripheral interventional procedures. It consists of a flexible guide wire shaft that can be easily and accurately placed in the targeted aorto-ostial location. Low profile, atraumatic, radiopaque expandable “feet” at the distal tip of the guide wire system facilitate precise stent placement in the aorto-ostial lesion.

Catalogue Number 3011

Packaged 1 per box, 5 boxes per case.

WIRE DIAMETERS & LENGTHS:

Wire Section	Wire Diameter	Section Length
Overall	-	127 cm
Distal Section	.014" (.35 mm)	4 cm
Proximal Section	.018" (.46 mm)	122 cm

EFFECTIVE INSIDE DIAMETER (ID) WITHIN GUIDING CATHETERS:

Catheter Size	Estimated Catheter ID	Effective ID
6 F	.070" (1.8 mm)	.050" (1.3 mm)
7 F	.078" (2.0 mm)	.058" (1.5 mm)
8 F	.088" (2.2 mm)	.068" (1.7 mm)

The Ostial PRO is an alignment tool with gold-plated “feet” that engage the aortic wall and allow easier assessment of the coronary or renal ostia, improving accuracy of stent position in aorto-ostial lesions.

NITINOL GOLD-PLATED LEGS
allow greater opacification to help identify the plane of the ostium

15 MM LEG SPAN
accommodates ostia

FLEXIBLE CYLINDER
Longitudinal opening allows use with 6, 7, or 8 French guiding catheters

FLEXIBLE DISTAL WIRE
The 4 cm distal end is ground down to 0.014" and heat-treated to allow more flexibility to prevent straightening of the guiding catheter curve while retaining push/pull characteristics

TAPERED CYLINDER
permits easy pullback into the guide

OVERALL LENGTH OF 127 CM
permits use with any guide that is ≤100 cm in length

COMPRESSION DEVICES

SafeGuard® Pressure Assisted Device	83
Safeguard Radial™ Compression Device	83
Finale® Radial Compression Device	84
RADstat® Radial Artery Compression System	84

SAFEGUARD® PRESSURE ASSISTED DEVICE

The SafeGuard pressure assisted device delivers passive compression and enables immediate pressure adjustment. It also maintains consistent pressure on the site when obtaining haemostasis with manual compression, and during patient recovery, positioning and transport. The SafeGuard pressure assisted device reduces demands on the clinical staff, maximises valuable resources, and enhances patient comfort.

HEARTSPAN® 8.5F STEERABLE SHEATH INTRODUCER

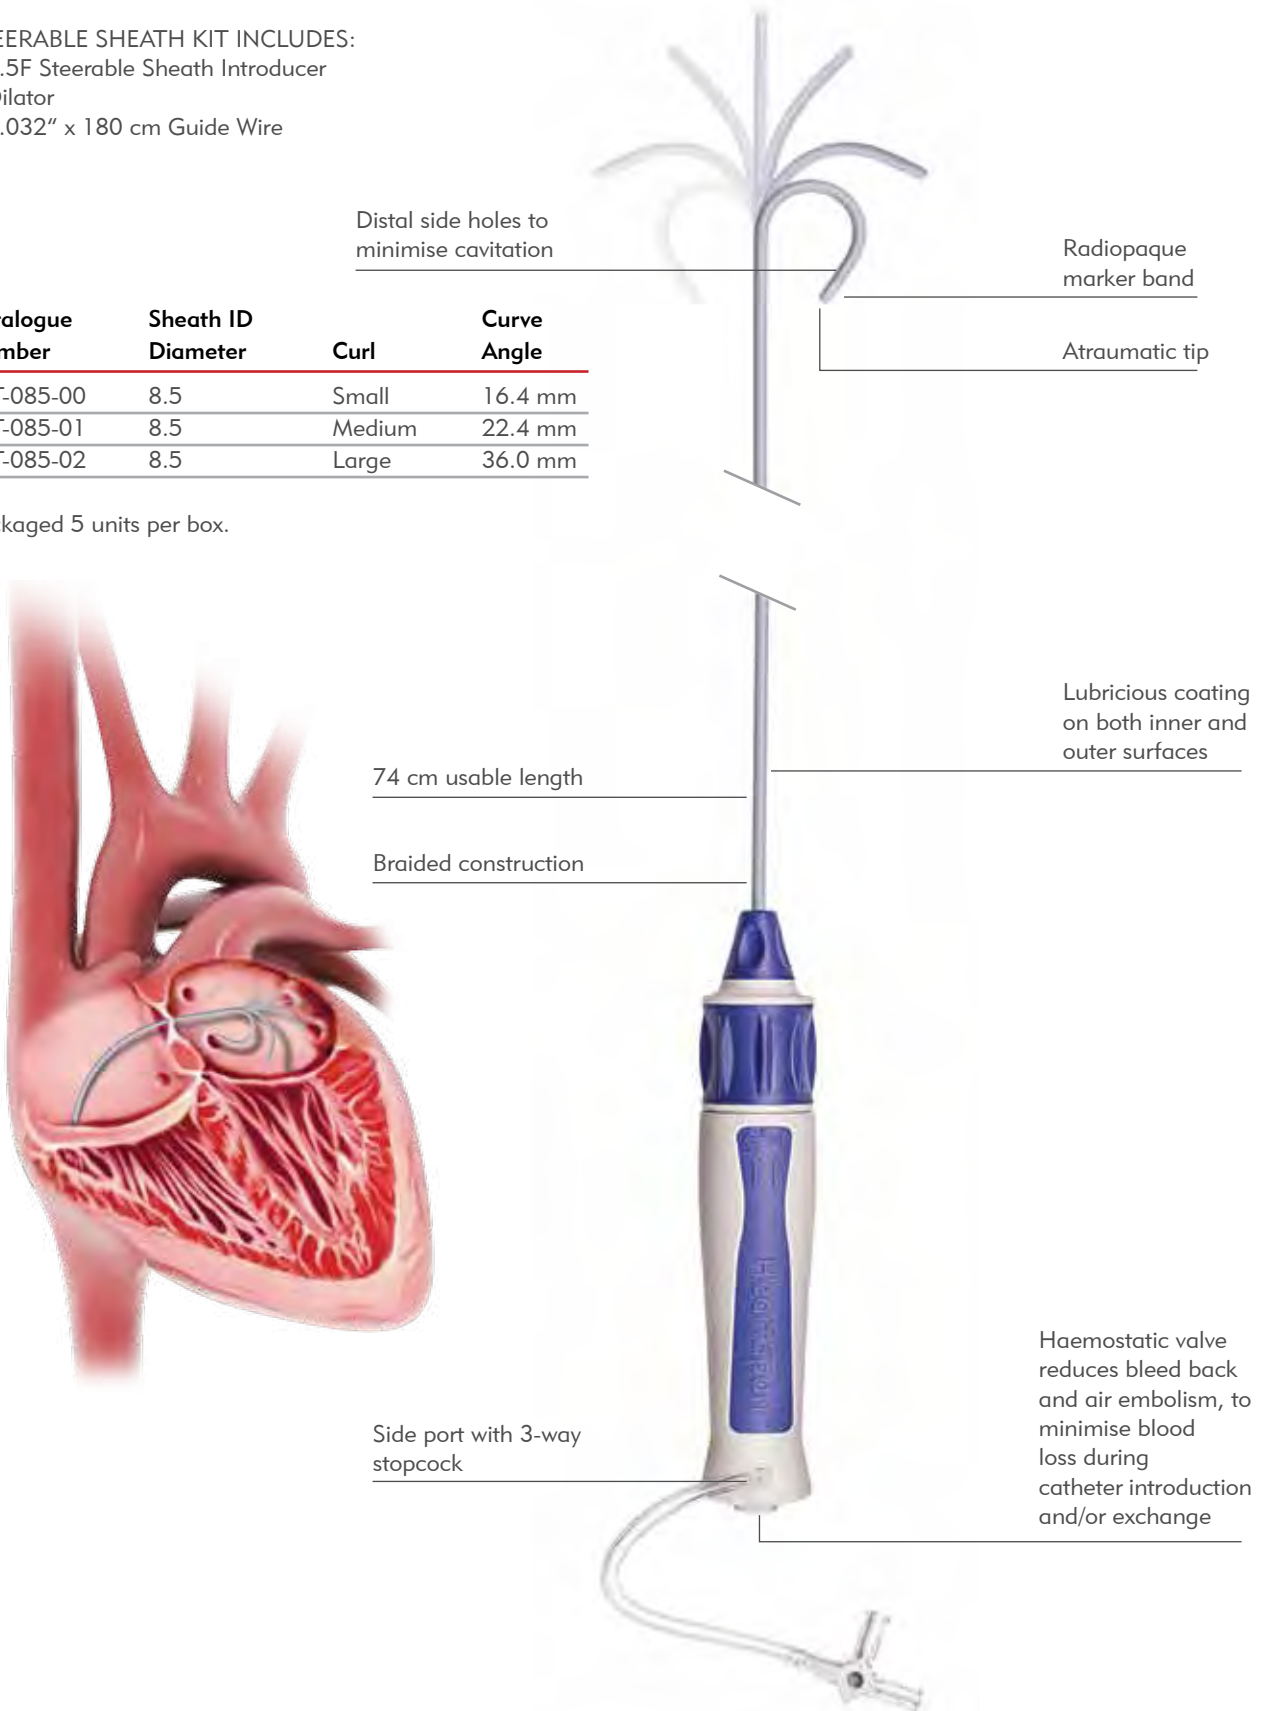

The HeartSpan Steerable Sheath is designed to offer a softer, flexible tip to reduce the risk of atrial wall perforation. The braided construction provides kink resistance and curve durability during atrial fibrillation procedures. When navigating cardiac chambers during Electrophysiology (EP) procedures, the sheath is designed to deliver an ergonomic and comfortable control for more precise deflection. The Steerable Sheath is designed to work in unison with the HeartSpan Transseptal Needle.

STEERABLE SHEATH KIT INCLUDES:

- 8.5F Steerable Sheath Introducer
- Dilator
- 0.032" x 180 cm Guide Wire

Packaged 5 units per box.

PRELUDE SNAP™ SPLITTABLE SHEATH INTRODUCER

The Prelude SNAP from Merit Medical features a seamless sheath-to-dilator transition to reduce vessel trauma and provide ease of insertion through tortuous anatomy. The Prelude SNAP is also easier to break, requiring 66% less break force than its predecessor,* making it effortless to remove and helping ensure leads stay in place.

SPLITTABLE SHEATH KIT INCLUDES

- Splittable Sheath
- Dilator
- Guide Wire 0.038" x 50 cm or 0.038" x 80 cm
- Merit Advance® Needle 18G x 7 cm

Robust Valve Design

Tight seal to protect against air embolism and blood loss

Improved Grip

Expanded wings with non-slip, ridged surfaces facilitate a tighter, more assured grip

Seamless Transition

Seamless sheath-to-dilator transition to reduce vessel trauma and promote ease of insertion.

Easier to Break

Requires 66% less break force than its predecessor.*

*Data on file.

CLASSICSHEATH™ SPLITTABLE HAEMOSTATIC INTRODUCER SYSTEM

The ClassicSheath Splittable Haemostatic Introducer System has been the gold standard of pacemaker and defibrillator lead implants for nearly 20 years. The ClassicSheath line provides a robust valve to help reduce the risk of air embolism and bleed back. The sheath is scored for consistent peel-away performance.

WORLEY™ ADVANCED LV LEAD DELIVERY SYSTEM

To meet the challenges of Cardiac Resynchronisation Therapy (CRT), you need advanced LV delivery systems to match the tortuosity of your patient’s anatomy. The Worley Advanced LV Lead Delivery System provides the tools and solutions needed to reduce implantation times, gain easier access to the target vessel, and improve chances for successful CRT implantation.¹

WORLEY™ CORONARY SINUS GUIDE (CSG)

The unique curve and braided core of the Worley Coronary Sinus Guide (CSG) helps you match your patient’s anatomy to the length and curve of the CSG. The braided core inner catheter can be advanced as needed to create variable curves reducing the number of sheaths needed to facilitate a successful implantation.

CSG KIT INCLUDES:

- PTFE-Coated Guide Wire
- Curved Guiding Core
- Straight Vessel Dilator
- Transvalvular Insertion Tool
- Needle
- Syringe

Catalogue Number

Description

Catalogue Number	Description
WOR-CSG-B1-09	Standard with Braided Core, 40 cm
WOR-CSG-BL1-09	Long with Braided Core, 50 cm
WOR-CSG-B2-09	Jumbo with Braided Core, 50 cm

Packaged 1 unit per box, 5 boxes per case.

WORLEY™ LATERAL VEIN INTRODUCER (LVI)

The Worley LVI telescoping system is designed to offer the flexibility needed for reliable and accurate placement of LV leads at their target location.

LVI KIT INCLUDES:

- Worley Vein Selector
- Transvalvular Insertion Tool
- Slicer

WORLEY™ VEIN SELECTOR

The Worley Vein Selector is designed to improve LV lead location with its key features: unique accordion hub to minimise kinking and enhance steerability, proprietary braided shaft to maximise flexibility, and soft tapered tip to reduce vessel trauma. It is also highly visible under fluoroscopy.

57538CSHK-WOR	Worley Hook Vein Selector

Packaged 1 unit per box.

WORLEY™ ADVANCED CONTRAST ADMINISTRATION KIT

The Worley Advanced Contrast Administration (CA) Kits combine all the products needed to gain sustained, clear visibility of coronary venous anatomy. The Worley CA Kits provide real-time visibility during CRT implantation for improved LV lead placement.

CA KITS INCLUDE:

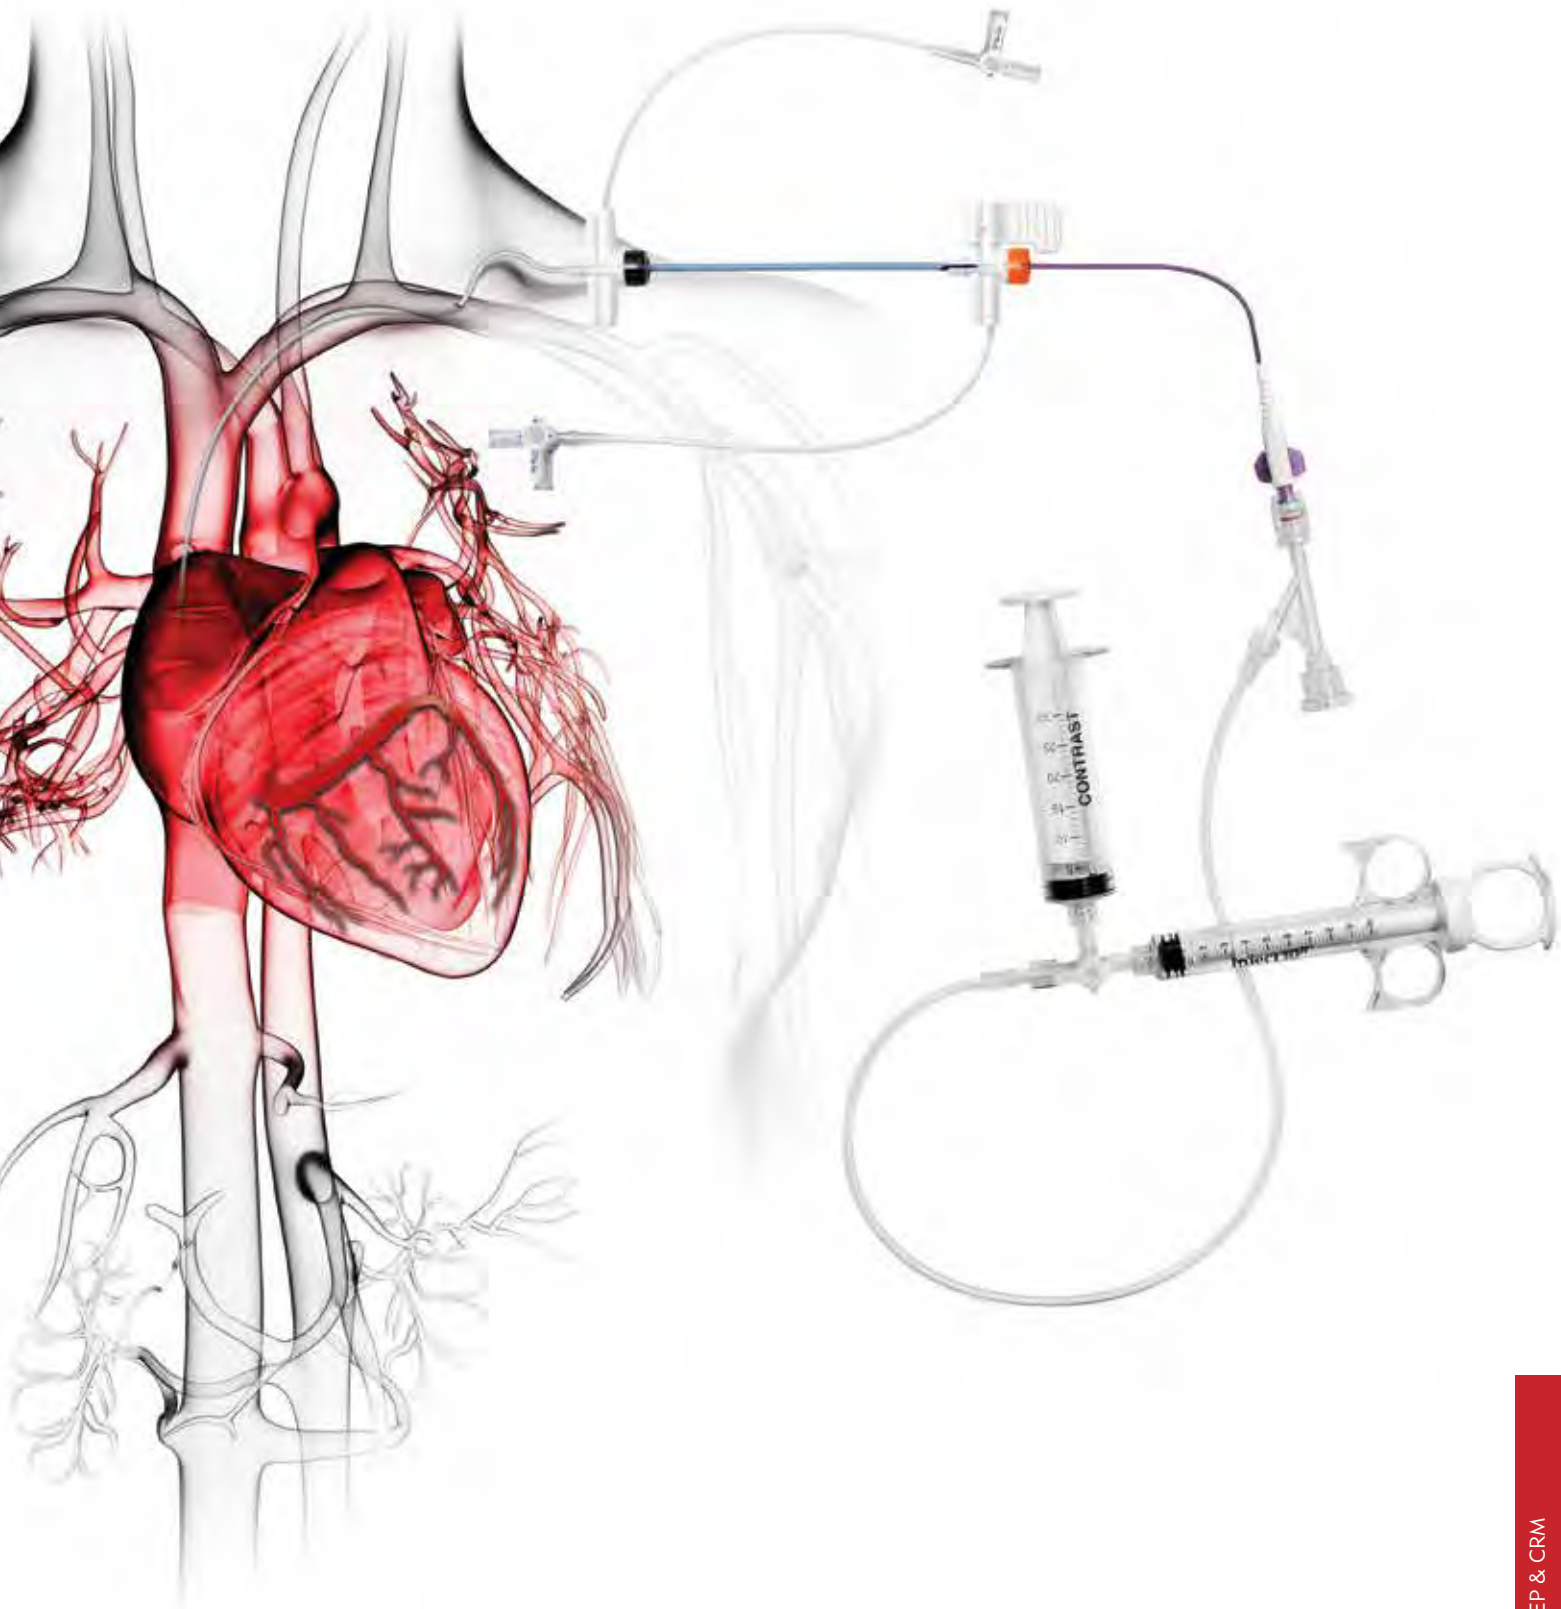

- Medallion® Syringes
- Inject10™ Coronary Control Syringe
- MAP™ - Merit Angioplasty Pack (includes haemostasis valve, guide wire insertion tool, pin torque device)
- Stopcock
- High-Pressure Tubing
- Labels and Bowl (Advanced CA Kit Only)

CUSTOM ANGIOGRAPHY KITS

When your clinical needs are unique, Merit Medical can customise an angiography kit to meet your specific requirements. A Merit Sales Representative can assist you in combining Merit components into a single kit.

NOTE: All custom kits require a signed drawing (example above) and contract.

PERICARDIOCENTESIS KITS

8.3F PERICARDIOCENTESIS PROCEDURE KIT

Designed to assist the clinician in draining fluid from the pericardial sac.

Includes

Quantity	Description
1	8.3F Pigtail or straight catheter, 40 cm with one marker band
1	8.5F Dilator 22 cm length
1	Guide wire: 0.035" (0.89 mm) x 80 cm, 3 mm J, double ended standard PTFE
2	3-way Stopcocks large bore
1	18G x 1 1/2" (3.8 cm) Medication Needle
1	25G x 1 1/2" (3.8 cm) Medication Needle
1	18G x 3" (9 cm) Access needle
1	18G x 5.9" (15 cm) Chiba Access needle
1	10 mL Luer lock syringe
1	20 mL Luer lock syringe
1	60 mL Luer lock syringe
1	1000 mL Merit Disposal Depot™ waste bag with drainage spout
10	4" x 4" (10 cm x 10 cm) Gauze sponges
1	61 cm x 61 cm Fenestrated drape
1	46 cm x 66 cm Absorbent barrier drape
1	Double-ended alligator clip cable
1	CSR Drape
1	#11 Futura® Safety Scalpel
1	3.0 silk suture with curved needle
1	Medication label set
2	3 mL ChloraPrep® (orange tint)

Catalogue Number	Description
PC801	Pigtail Shape
PC802	Straight Shape
PC803EU	Pigtail Shape; kit does not include ChloraPrep®

6F PERICARDIOCENTESIS PROCEDURE KIT

Designed to assist the clinician in draining fluid from the pericardial sac.

Includes

Quantity	Description
1	6F High-flow pigtail or straight catheter 60 cm
1	6F Dilator 22 cm length
1	3-way stopcock
1	Guide wire 0.035" (0.89 mm) x 80 cm
1	Double ended Heavy Duty PTFE (J & straight)
1	22G x 2 3/8" (6 cm) Medication Needle
1	19G x 1 1/2" (3.8 cm) Medication Needle
1	18G x 3" (9 cm) Access Needle
1	18G x 5.9" (15 cm) Chiba Access Needle
1	10 mL Luer lock syringe
1	60 mL Luer lock syringe
1	1400 Merit Disposal Depot™ waste bag with connecting tube
10	4" x 4" (10 cm x 10 cm) Gauze sponges
1	40 cm x 40 cm Fenestrated drape
1	46 cm x 66 cm Absorbent barrier drape
1	Double-ended alligator clip cable
1	CSR wrap
1	#11 Futura® Safety Scalpel

Catalogue Number	Description
PC101	6F High-flow pigtail catheter
PC201	6F High-flow straight catheter

Packaged 4 kits per box.

PATIENT COVER | RADIAL DRAPES

PATIENT COVER

The Patient Cover is a standalone convenience product that Merit Medical has made available for clinical settings where a fenestrated drape outside of the procedure pack is necessary or desired. Packaged 10 per case.

Catalogue Number K12T-06756

MMS100	MiniStop 100 mL fluid capacity, packaged 20 per box
MMSF200	MiniStop filter, packaged 20 per box

MBS100

BACKSTOP+™ AND MINISTOP+™ DISPOSAL SYSTEMS

For quick and safe fluid waste elimination. Has a seal-tight lid to prevent fluid leakage after a procedure and includes a temporary sharps holder.

Catalogue

Number	Description
MBSP100	BackStop+ 500 mL fluid capacity, packaged 10 per box
MMSP100	MiniStop+ 100 mL fluid capacity, packaged 20 per box

MBSP100

DUGOUT® CLOSED WASTE BASINS

With 1000 mL fluid capacity and absorbent material. Includes particulate-free, die-cut sponge, secondary compartment for storage of ancillary products or saline, and seal-tight lid. Packaged 6 units per box, 4 boxes per case.

Catalogue

Number	Description
DUG100	DugOut 1000 mL fluid capacity
DUG1SS	DugOut 1000 mL fluid capacity with ShortStop® Temporary Sharps Holder

DUG100

SHORTSTOP® TEMPORARY SHARPS HOLDER

Reduce the possibility of accidental sharps injuries. Rigid, puncture-resistant material reduces potential of needle sticks and increases safety during disposal. Coring-resistant foam provides easy removal and minimises particulate.

Catalogue Number SS10

Packaged 25 per box, 4 boxes per case.

SS10

SHORTSTOP ADVANTAGE® TEMPORARY SHARPS HOLDER

The ShortStop Advantage temporary sharps holder features a new side access to rest a fully loaded syringe attached to a needle.

Catalogue Number SS20

Packaged 25 per box, 4 boxes per case.

SHORTSTOP GRANDSTAND® TEMPORARY SHARPS HOLDER

The ShortStop Grandstand holds sharp devices upright for convenient access and safety. The compact configuration is a space-saving solution for the safe storage of needles, syringes and scalpels.

Catalogue Number SS30

Packaged 10 per box, 4 boxes per case.

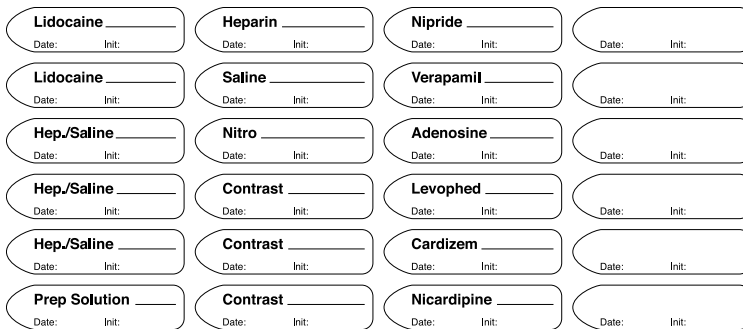

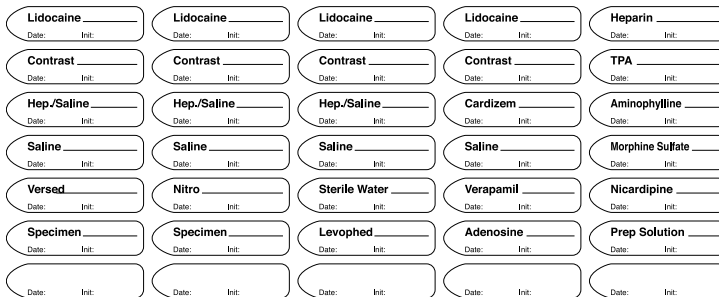

PAL™ - PEN AND LABELS

Strategically designed medication labeling system. The labels are made of moisture resistant polypropylene material. In addition, each PAL includes a sterile, smear resistant, permanent marker. Packaged 25 units per box, 4 boxes per case.

PRODUCT NAME INDEX

Airless Rotating Adapters	55	Syringes	56-58
Angiography Trays	97-100	Torque Devices	38
Angioplasty Packs	76	Transseptal Needles	88
Aspiration Catheters	65	Transseptal Sheaths	87
Compression Devices	83-84	Tubing	45-46
Contrast Administration Kit	93	Vacuum Pressure Syringes	58
Contrast Management Systems	39-41	Vein Selectors	93
Coronary Control Syringes	56-57	Waste Disposal Systems	104
Coronary Sinus Guides	92		
Diagnostic Cardiology Catheters	17-36		
Fluid Administration Sets	42-44		
Flushing Syringe	58		
Guide Wires	16, 37		
Guiding Catheters	66-74		
Haemostasis Valves & Accessories	75-76		
High Pressure Tubing	45		
Hydrophilic Guide Wires	37		
Inflation Devices	77-79		
Labels	106-108		
Lateral Vein Introducer (LVI)	92		
Lateral Vein (LV) Lead Delivery System	92-94		
Manifolds	48-53		
Needles	5-7		
Obturators	16		
Patient Cover Radial Drapes	102		
Pericardiocentesis Kits	101		
Prep Syringe	58		
Pressure Assisted Devices	83-84		
Pressure Infusor Bags	47		
Pressure Monitoring Tubing	46		
Pressure Transducers & Accessories	59-62		
Pressurised Contrast Administration System	50		
PTFE-Coated Diagnostic Guide Wires	37		
Radial Arm Board & Accessories	3-4		
Scalpels	8		
Scatter Radiation Drapes	103		
Sharps Holders	104-105		
Sheath Introducers	9-15		
Splittable Sheath Introducers	90-91		
Steerable Sheath Introducers	89		
Stent Positioning System	80		
Stopcocks	54		

UNDERSTAND. INNOVATE. DELIVER.

Merit Medical Systems is a worldwide leader in the development, manufacturing, and distribution of quality medical devices used in interventional and diagnostic procedures. With a global work force and cutting-edge manufacturing facilities equipped with the most advanced technology, Merit Medical consistently delivers quality products that are backed by excellent customer service and professional expertise.

European Corporate Headquarters, Maastricht, The Netherlands
