BackStop+™
Disposal System with
Temporary Sharps Holder

Medallion®
Syringes

PAL™
Medication Labeling System

prepare

> ensure safety

Merit Medical has a complete line of products designed to ensure the safety of clinicians and patients. **SHIELDED** scalpels, needles, and **SECURE** temporary sharps holders help protect you and your staff from accidental sharps injuries. Our **SPILL PROOF** closed containers prevent hazardous spills and allow convenient and safe waste disposal. Multiple color options and **SMEAR-RESISTANT** labeling for syringes and containers help you meet safety goals for preventing medication errors.

Merit Advance®
Angiographic Needle

MAK™/Merit S-MAK™
Mini Access Kit

Prelude®
Sheath Introducers

> start with quality

Merit Medical helps you start with quick, effective access with **SHARP** angiographic needles, sheath introducers with **SMOOTH** transitions, and mini **ACCESS** kits designed to lessen trauma and reduce bleeding.

InQwire®
Diagnostic Guide Wire

Merit Laureate®
Hydrophilic Guide Wire

navigate

> navigate with confidence

Merit Medical's lines of hydrophilic and diagnostic guide wires are designed for **SMOOTH TRACKING** through difficult vasculature. Our diagnostic guide wires are manufactured with a unique PTFE precoating process, which results in a consistent coating to improve **PERFORMANCE** in your procedures.

TRAM-P™
Transducer and Manifold

Meritans®
Pressure Transducer

HeartSpan®
Transseptal Needle

diagnose

> rely on performance

The HeartSpan Transseptal Needle is designed to be exceptionally **RESPONSIVE** with enhanced stiffness. The **ERGONOMIC** handle fits the contours of your hand for nimble control and navigation. The HeartSpan Fixed Curve Braided Transseptal Sheath has a braided steel shaft for excellent torqueability. The tapered dilator and soft, **ATRAUMATIC** tip is designed to lessen trauma when crossing tissue. The **RADIOPAQUE** platinum marker facilitates proper placement. Manifolds and pressure transducers complement these products with construction that optimizes **VISIBILITY**, torque, and constant pressure readings.

HeartSpan®
Fixed Curve Braided Transseptal Sheath

deliver

HeartSpan®
Steerable Sheath

➤ extend your options

The HeartSpan Steerable Introducer Sheath has a **SOFT** atraumatic tip to reduce the risk of arterial wall perforation. The larger, **ERGONOMIC** handle gives you comfort and control in addition to precise **ARTICULATION** when navigating cardiac chambers. Its braided construction provides kink resistance and curve **DURABILITY**. The lower crossing profile creates a **SMOOTH** transition from the dilator to sheath introducer to reduce trauma to the atrial septum.

ClassicSheath®

Splittable Hemostatic Introducer System

**Merit Laureate®**

Hydrophilic Guide Wire

➤ start with quality

For over 17 years, the ClassicSheath has been the **GOLD STANDARD** for pacemaker and defibrillator lead implants. The **ROBUST** valve design can help reduce bleedback and the risk of air embolism. The **ATRAUMATIC** vessel dilator is designed to reduce vein entry force and facilitate **SMOOTH** transition. A scored sheath offers consistent peel-away **PERFORMANCE**.

InQwire®
Diagnostic Guide Wire

Merit Maestro®
Microcatheter

navigate

➤ navigate with confidence

Merit Medical's **LUBRICIOUS** hydrophilic guide wires offer reduced friction, superior torque, and turn-for-turn **RESPONSIVENESS**. Our diagnostic guide wires are manufactured with a proprietary, PTFE-precoating process, which results in a consistently **SMOOTH** surface for **TRACKING** through difficult vasculature. Our multipurpose microcatheter has a flexible distal region for atraumatic vessel entry, hydrophilic coating, and a radiopaque marker.

deliver

Worley™ Advanced CSG
Coronary Sinus Guide

Worley™ Advanced LVI
Lateral Vein Introducer

Worley™ Vein Selector
Vein Selector

ONE Snare®
Endovascular Snare System

EN Snare®
Endovascular Snare System

Worley™ Advanced CA Kit
Contrast Administration Kit

expand your options

The Worley Advanced Coronary Sinus Guide has a **BRAIDED CORE** that can be advanced to create **VARIABLE CURVES** to match your patient's anatomy. The Worley Advanced LVI Lateral Vein Introducer offers you the **FLEXIBILITY** you need for reliable, accurate placement of LV leads. The accordian hub of the Worley Vein Selector minimizes kinking and enhances **STEERABILITY**, handling, and control when navigating tortuous anatomy. The Worley CA KIT combines all of the products you need to gain clear, sustained visibility of coronary venous anatomy. To **OPTIMIZE** your lead management, Merit also offers two endovascular snare systems.

Scion Clo-Sur^{PLUS} P.A.D.[™]
Hemostasis Pad

Safeguard[®]
Pressure Assisted Device

> achieve hemostasis

Complete your EP and CRM procedures with effective closure to maximize your clinical efficiency. Our compression devices maintain **COMFORTABLE**, convenient hemostasis with clear **VISIBILITY** and easy access to the distal pulse. The Scion Clo-Sur PLUS P.A.D. is made with proprietary polypropylene, a positively charged material that reacts with negatively charged red blood cells to **ACCELERATE CLOTTING**. Independent in vitro testing has demonstrated its effectiveness as a 6-day **ANTIMICROBIAL BARRIER**.

customize

➤ integrate for efficiency

Enjoy the **CONVENIENCE** of having all the items you need delivered together, streamlining clinical set-up time to save both time and money. We can also **CUSTOMIZE** fluid management configurations, introducer and sheath kits, syringes with multiple color options, and medication labeling to meet your exact specifications and safety goals.
