

Mini Reflector

Expanding utility to treat more patients

INCREASED UTILITY, SMALLER PROFILE

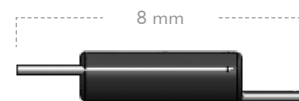

- 33% reduction in overall length of the Reflector
- Increased clinical utility for localizing smaller targets
- Can be used to mark soft tissue, including lymph nodes
- Cleared for long-term implant
- Does not interfere with MRI Studies
- Completely passive until activated by the SCOUT Guide

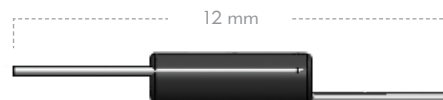

PRECISE ULTRASOUND DELIVERY

- Outstanding control and ease of use with an ergonomic handle
- Excellent visualization with intuitive needle bevel orientation
