

PERIPHERAL INTERVENTION

# RLS™

## ReSolve Label Set

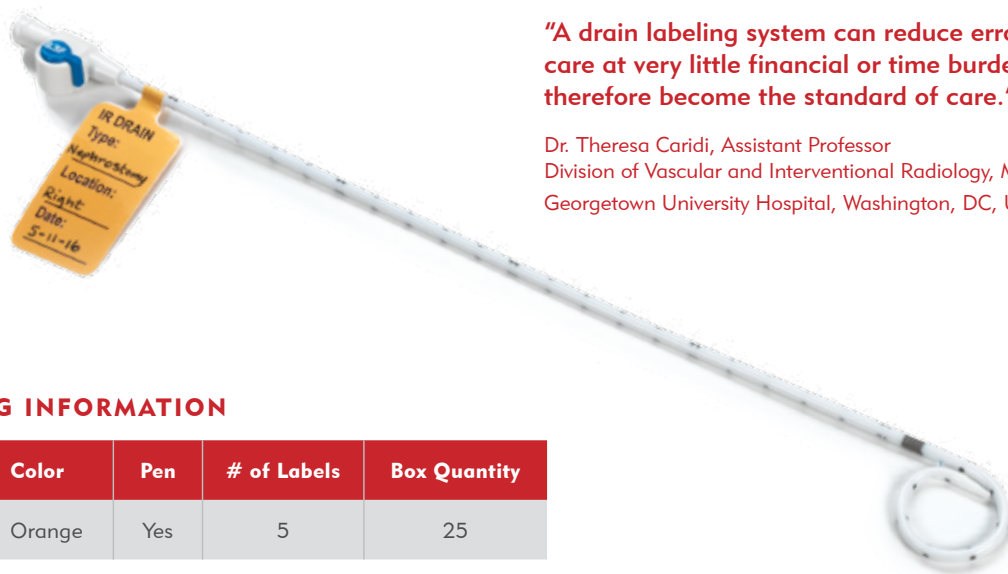

Improve patient care with the world's first drainage catheter labeling set.

# RLS™

## ReSolve Label Set

Merit's RLS ReSolve Label Set was created to **REDUCE ERRORS** related to the management of drainage catheters. By clearly listing drain type, location and date of placement, the RLS helps clinicians **STANDARDIZE** and **IMPROVE PATIENT CARE**. Merit Medical is committed to supporting your drainage catheter procedures every step of the way.

**"A drain labeling system can reduce errors in patient care at very little financial or time burden and should therefore become the standard of care."**

Dr. Theresa Caridi, Assistant Professor  
Division of Vascular and Interventional Radiology, MedStar  
Georgetown University Hospital, Washington, DC, USA
