MRI SAFETY INFORMATION

This person is implanted with a SCOUT MD™ Reflector and can safely undergo an MR exam only under the specific conditions listed below. Scanning under different conditions may result in injury. Full MRI safety information is available in the MRI Safety Information section of the Instructions For Use, which can be obtained at www.merit.com

- Static magnetic field of 3.0T or less
- Maximum spatial gradient magnetic field of 40 T/m (4,000 gauss/cm)
- Scan Duration of up to 2- W/kg whole-body average SAR for 60 minutes of continuous RF (a sequence or back-to-back series/scan without breaks)

Patient Name: _____

Implant Date: _____

Hospital Name: _____

Hospital Address: _____

Implanting Physician: _____

Refer to the product Instructions For Use for additional information. www.merit.com
